

Revised Data Sets Processed by the WOUDC in 1999

Summary

There were four notable data sets that have been revised in the period of October 1, 1999 to September 30, 2000. Refer to Table 1, Major Revisions. Major revisions typically result in a change to a data set processing algorithm or changes to the instrument setup such as constants following a calibration or inter-comparison.

These data were published on the first *Ozone Data for the World* publication in CD format (*ODW-CD#1 1999*) released in November 2000.
